The GW Institute for Spirituality in Health. GWish was established in May 2001 as a leading organization on education and clinical issues related to spirituality and health. Under the direction of Founder and Director Christina M. Puchalski, MD, professor of Medicine, GWish is changing the face of healthcare through innovative programs for physicians and other members of the multidisciplinary healthcare team, including clergy and chaplains.

Center for Spirituality and Health, Duke University. The Center was founded in 1998, and is focused on conducting research, training others to conduct research, and promoting scholarly field-building activities related to religion, spirituality, and health. The Center serves as a clearinghouse for information on this topic, and seeks to support and encourage dialogue between researchers, clinicians, theologians, clergy, and others interested in the intersection. <http://www.spiritualityandhealth.duke.edu>
